

DIVYANSH SHARMA

Senior UX Designer · Design Systems · Healthcare & Enterprise SaaS

Ahmedabad, India | work.divyanshsharma@gmail.com | +91-7976296019 | [linkedin.com/in/divyansh98sharma](https://www.linkedin.com/in/divyansh98sharma) | divyanshsharma.work

SUMMARY

UX designer and team mentor with 5+ years across healthcare and enterprise SaaS. Currently lead a team of 3–5 designers at eClinicalWorks, where I own design-review standards and built the company's token-based design system from the ground up. Strongest in clinician-facing workflows, data-dense dashboards, and WCAG accessibility — pairing hands-on craft with the judgment to run critiques, hire designers, and influence product direction.

EXPERIENCE

Mentor – Usability — eClinicalWorks

July 2026 – Present · Ahmedabad, India

- Lead and mentor a team of **3–5 UX designers** across multiple healthcare product initiatives, running design critiques and quality reviews from concept through implementation readiness.
- Established the design-review standards, UX documentation practices, and accessibility benchmarks now used across product teams.
- Partner with Product, Engineering, QA, and senior leadership to shape product direction and champion clinician-centered decisions.
- Own designer hiring and onboarding: interview candidates, evaluate design capability, and run structured onboarding for new team members.

Usability Specialist (UI/UX Designer) — eClinicalWorks

Jan 2023 – July 2026 · Ahmedabad, India

- Owned end-to-end UX for multiple clinician-facing healthcare products — research, flows, prototyping, and validation — contributing to a **30% increase in user engagement**.
- Independently designed and shipped a **token-based design system**, improving cross-product consistency and cutting design-to-development time by ~15%.
- Modernized the company's legacy design framework; usability scores improved **25%** in follow-up testing.
- Ran qualitative and quantitative research programs that simplified core clinician workflows and shortened development cycles.

Associate Product Designer — Peak.ai (now UiPath)

Jan 2021 – Dec 2022 · Jaipur, India

- Built the platform's design system library in **Storybook**, standardizing components across products.
- Designed data-dense dashboards (Distribution, List Price Optimization, On-site Personalization) credited with **40% category growth**.
- Led UX for the Segment Explorer, Product Explorer, and Merchandiser modules.
- Revamped global navigation and the homepage, driving a **35% increase in engagement**.

SKILLS

Design: Design Systems, Information Architecture, Wireframing, Prototyping, Interaction Design, Service Design

Research: Usability Testing, Qualitative & Quantitative Research, Journey Mapping, Feedback-Loop Analysis

Accessibility: WCAG, Assistive Technology, Accessible SVG (Level Access certified)

Tools: Figma, Storybook, Framer, Replit, Adobe Illustrator, Photoshop · Working HTML/CSS/JavaScript for design handoff

CERTIFICATIONS

IxDF: Human-Computer Interaction: The Foundations of UX Design (2025) · Design for Thought and Emotion (2025) · Design Thinking · Journey Mapping

Level Access: Introduction to Digital Accessibility · Assistive Technology · Accessibility Basics of SVG
